Empowering a new vision

Sci-Voice™ Talking LabQuest 3

Be one of the first to pre-order the all new Talking LabQuest 3 by May 1st, 2025!

Now offering the entire family of enhanced wireless Go-Direct sensors, more resources, and even more STEM independence, the TLQ3 is the ultimate tool for any student, teacher, or STEM enthusiast.

Returning Customers

Current Independence Science customers will receive an introductory price of \$2995 for each Sci-Voice™ Talking LabQuest 2 unit trade-in, if commitment to purchase is received by May 1, 2025.

With your trade-in, upgrade to the latest in STEM accessibility talking tools with all the features you know and love and more!

New Customers

New customers of the Sci-Voice™ Talking LabQuest 3 will receive an introductory price of \$3495 if commitment to purchase is received by May 1, 2025.

Join other institutions, classrooms, and STEM professionals in using the forefront of talking accessible classroom and lab-grade technology. Experience continued and furthered independence with technology at your fingertips.

Independence Science customers who sign up for either program by May 1, 2025 will receive the first software upgrade on all their units at no extra charge.

Units will start shipping in August 2025.
